EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: After very careful study of the prior art of record, particularly the U.S. Patents to Bethune et al and Thorsten et al, the Examiner agrees with applicant that there is not sufficient motivation that would suggest to the ordinarily skilled artisan the combination of teachings from the references as previously alleged. Applicant is correct that Bethune et al is designed to keep the temperature of the optical elements therein as constant as possible. Thus there would be no motivation to use any temperature-based angular changing elements therein, and the Examiner's previous finding of the obviousness of same is withdrawn. Further search by the Examiner has uncovered no additional prior art any more relevant than the prior art already of record herein. All of the presently pending claims (i.e. claims 1-9) are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351.
